Stronge anti-bacteria
Biology resistance process during the production , and seaming welding avoid any bacteria growing

Indentation resistance
Homogeneous structure makes the flooring resistant to indentation from external pressure

Health care
Without any heavy metals and poisonous substance , passing certification of CE , ISO 9001 and ISO14001

Stain resistance
PUR lacquering : Makes flooring resistant to acid & alkali and tincture of iodine

Easy cleaning
UV coating on the surface for convenient cleaning , reducing the maintenance cost

Abrasion resistance
Homogeneous structure avoids the delamination matters comparing with other abrasionresistant material

Convenient installation
Scientific environmental seamless welding technology makes the structure against the delamination , installed easily

Sound insulation
Natural molecular structure makes excellent sound insulation in some noisy area

Mildew resistance
seamless welding and special chemicals process during production and primer coating above the selfleveling basement , make it water proof and kill mildew

Colorful design
Marble/ leather/ plain design make plenty of choices for human, and natural design also improves visual field

Elastic surface
Replete structure design makes walk feeling comfortably to avoid any danger
