## Measuring

- ▶ **Inside Mount:** Mark order "Inside Mount", measure width of opening at top, middle and bottom of window opening. Use the smallest measurement when ordering. Factory will deduct 0.5" (12mm) to insure proper fit. Measure height of opening on left, center and right, use smallest measurement when ordering.
- ▶ **Outside mount:** Mark order "Outside Mount", measure width and height of area to be covered and provide exact dimensions required. It is recommended that blinds overlap the window by at least 1.5" (40mm) on each side. If mounting brackets beyond the casing or to clear obstructions (i.e., window cranks, trim work. etc.), specify projection brackets required.
- ▶ **Note:** Inside Mount measurement represent the exact window opening size, the factory will make necessary deduction to insure a proper fit. Outside mount measurements represent the exact blind size needed. No allowance will be made by factory. Please use a steel tape measure to insure proper measurements.
- ▶ **Bay Windows / Corner Windows / Specialty Window:** Please refer to us for assistance.

## Cleaning

Occasional light vacuuming with a brush attachment should keep blinds clean. More sever soiling can be removed by using a soft cloth and a mild detergent / water
